

CAROLINA EAST

PHYSICIANS

CarolinaEast Physicians are committed to the overall health and well-being of our community. We are proud to announce the introduction of a

Free Vascular Screening Program

at

CarolinaEast Heart Center

1001 Newman Road

New Bern, NC 28562

Vascular disease afflicts millions of Americans and is one of the most frequent causes of death and disability among older Americans. Early detection is vital. In most cases, vascular disease that is detected early can be effectively treated.

The screening includes the following tests:

- **Carotid Scan:** this is a painless ultrasound test that shows those at increased risk for a stroke.
- **Aortic Scan:** this is a painless ultrasound test that detects potentially fatal abdominal aneurysms.
- **PAD Testing:** this is a painless measurement of circulation to your legs that detects peripheral arterial disease.

To schedule your appointment for a 30 minute **Free Vascular Screening** requiring no preparation, call **252-635-~~6777~~** and ask for **Vascular Screening**.
