ROOTED IN CHRIST

Ephesians 3:17-18 tells us that as our faith and trust in Christ grows, our roots will grow down into God's love and keep us strong, and we can gain knowledge of how wide, long, high and deep his love is. A wild fig tree discovered in the Echo Caves of South Africa is reported to have a penetrated root system of 400', which is equivalent to the length of A rugby field. That is amazing indeed, and it prompts me to ask, "How rooted is our love for Christ?" The deeper our roots are to God's love for us, the better we can weather the storm. Let's be rooted so deeply that nothing can uproot us from the Lord.
